IMPORTANT TO  
**CALIFORNIANS,**  
 AND  
**TRAVELERS GENERALLY.**

**Y**OUR ATTENTION is respectfully called to A. FESSENDEN'S PATENT POCKET FILTER, an article which it would be well for every person to possess, as its use would undoubtedly prevent much sickness, which is more or less induced by drinking impure water.

This Filter is particularly adapted to those who are about visiting the gold regions, and travelers generally. Any person having one of these Filters will be sure of drinking pure water from springs, brooks, ponds, or rivers, where there is always more or less of animal and vegetable matter, of which every person must necessarily drink a portion, without the use of this Filter. This Filter having been duly Patented, the public are cautioned against purchasing or using any article calculated to infringe upon the rights of the patentee, as any such infringement will be dealt with according to law. What we claim is, "The Filtering of Water by the very act of drinking."

For Sale, Wholesale and Retail, by the manufacturer and inventor, A FESSENDEN, corner of Beach and South st., Boston, also by W. C. LAWRENCE, 18 Kingston st., JAMES EATON, 44 Washington st., JOHN-

**Chilson's Improved Patent, (1850,) AIR-WARMING AND VENTILATING FURNACE.**

*Improvements Patented June, 1850.*

**W**ARMING and Ventilating of buildings Highly satisfactory results accomplished in warming and ventilating DWELLINGS, Churches, School-houses, Hospitals, Stores, &c. The final Invaluable Improvements are now added to *Chilson's Patent Air-Warming and Ventilating Furnaces*, and patented June, 1850. His furnaces and ventilating apparatus are now perfect in every respect. Committees and others, from any part of the world, in pursuit of the best possible plan for warming and ventilating buildings of all classes, can

see these improvements in operation in the public buildings of the City and State, and in the first class dwellings, etc.

Mr. CHILSON has abandoned the manufacture and use of the common red-hot iron pot furnaces, which create that scorching and suffocating odor caused by burning the oxygen, and destroying the vitality and freshness of the air. Many gentlemen well known for their scientific attainments in the matter of heat and ventilation, have thoroughly tested these improvements. They have also been unanimously adopted by the various public committees who have been appointed from time to time to investigate the subject of heat and ventilation, as may be seen by their several printed reports.

Also three sizes of a superior PORTABLE FURNACE, DR. CLARK'S BOSTON SCHOOL VENTILATING STOVES, REGISTERS and VENTILATORS, of all patterns and sizes—and every article that is adapted to the above business. For sale, wholesale and retail, at the *Store, Range, Grate, and Air-Warming and Ventilating Furnace Establishment*,

No. 51 & 53 Blackstone Street, BOSTON.

## PUBLISHERS' NOTICE.

---

The Publishers of the Massachusetts Business Directory have now the pleasure of presenting to the Public a work of great utility, containing an amount of information seldom attained in a book of this size and price.

A second part has been appended, bringing the changes and additions down to a later period than any other work out. It will be observed that the principal additions have been in the Metropolis, but when they have been numerous in other places, they have been noted. We have endeavored to obtain and insert the name, occupation, and residence of every individual in any business or profession in the State, and hope the two parts of the Directory will be found to have nearly attained this object. We do not flatter ourselves that they are free from errors and omissions, but they cannot be important, and will be corrected in any future editions.

If the information sought should not be found in one part, please refer to the other; and if not in either, it may be found among the Miscellaneous Items; but we may note that all changes or new establishments within the year, are in Part Second, and most of the older in Part First.

As this Book is not only a Directory which should be in the hands of every business man, but also an itinerary for the traveler, and guide to various sources of information and amusement, we confidently hope it will find favor with all classes.

THE PUBLISHERS.

# BUSINESS REGISTER.

To give correct business information, for the benefit of the business community, is the object for which we labor. To better accomplish this, we have engaged to distribute among Merchants, Manufacturers, and Consumers, throughout the United States, more than one hundred thousand copies of the following Register. In its columns you will find the address and business of one or more firms of importers and wholesale dealers in each branch of business. We have placed in our Register the names of such Firms only as we can recommend, selecting those who keep constantly on hand large supplies of goods, and where orders from all parts of the country will be received and promptly answered, on terms satisfactory to the purchaser. Further information will be given by those in our employ, who will, during the year, call on most of the principal merchants and manufacturers.
